

## Radical Adults Lick Godhead Style

Sonic Youth

Send the moon thru the skylight  
And bells together outrageously  
Noiseball, flirtatious example  
An' bless her soul to further degree  
Theatre goddess, film destroyer  
New York girls are sure to enjoy her  
A fuzzy peach, teenage computer  
A shockin' figure in the eye of the universe

I am dead by the beauty of strangers  
In horror my eye, head transforms them  
Into smiling, beatific room mates  
From dust to dust they create rock n' roll  
Here comes something, you are Lou Reed  
Transformer cracked by the backyard stream  
A killer tunes, bubblegum disaster  
Radical adults lick Godhead style
