

You are what brings me to my knees and from my sleep you wake me

You are the ground beneath my feet and to my dreams you take me

You are the one who shapes me

You are the one who shapes me

You are what brings me to my knees and from my sleep you wake me

You are the ground beneath my feet and to my dreams you take me

You are the one who shapes me

Yeah you are one who shapes me

And I can't live this life without you by my side can't burn out  
t bright if you don't set me on fire on fire!

My soul's on fire with this love make the flame burn higher

Love glows to guide us through the night to make the darkness brighter

You set be on fire

And I can't live this life without you by my side can't live this  
is live

On fire

On fire
