All My Love All My Life

Sonny James

All my love all my life I'll give to you I'll be true In your hands I'll place my heart A heart that's true that keeps loving you

Together we'll share life's sorrows and joys To each other we'll be true Just as long as I live I will give All my love, all my life just to you

The times when you're not with me The lonely hours never end Then when you're back, back in my arms My whole world's bright again

With your hand in mine we'll travel life's road And each day I'll say anew Just as long as I live I will give All my love, all my life just to you all my love
