

# Almost

Sonny James

Almost you fell in love with me  
Almost you gave your heart to me  
But the promises you've made  
You have broken and betrayed  
And left me with just your memory

Almost your heart I did possess  
Almost you brought me happiness  
But someone new came by  
And you left me here to cry

Oh, how close we were almost

Almost your heart I did possess  
Almost you brought me happiness  
But my dreams just won't come true  
And there's nothing I can do

Oh, how close we were almost
