

## Every Step Of The Way

Sonny James

We'll walk the road of life together day by day  
And I will love you every step of the way  
The road may wind beneath the sky of blue or gray  
But I will love you every step of the way  
So only love me and love me only and we will never walk with loneliness  
For just as sure as every April turns to May so will I love every step of the way  
(So only love) only love me (love me only) love me true  
No we will ever walk with loneliness  
For just as sure as every April turns to May so will I love every step of the way  
I'll love you only every step of the way
