Every Step Of The Way

Sonny James

We'll walk the road of life together day by day
And I will love you every step of the way
The road may wind beneath the sky of blue or gray
But I will love you every step of the way
So only love me and love me only and we will never walk with lo
neliness
For just as sure as every April turns to May so will I love eve
ry step of the way
(So only love) only love me (love me only) love me true
No we will ever walk with loneliness
For just as sure as every April turns to May so will I love eve
ry step of the way
I'll love you only every step of the way
