

## Fairy Tales

Sonny James

I told all the stars up above  
That I'd never lose your precious love  
And I told them how true you would be  
Now they laugh back at me

At my old fairy tales fairy tales and make believe  
And I wonder who I deceive with my fairy tales

You're gone but I say I don't care  
I pretend that you never would dare  
I keep telling our friends I'm all right  
I don't miss you each night  
But it's just fairy tales

Tomorrow the hurt will have cease  
And I won't think of you and the least  
I'll be too busy thinking of when  
I will find love again  
But it's just fairy tales
