## **Heaven Says Hello**

## **Sonny James**

Heaven says hello every morning
When the sun says, ?Hi I've come to spend the day?
Heaven says hello with the songbirds
And the little flowers that nod along my way

And when the day is through and I hurry home to you As the twilight steals across the golden skies Heaven says hello when you kiss me And I look into the blue of your eyes

Heaven says hello when you kiss me And I look into the blue of your eyes And I look into the blue of your eyes
