

# I Let Her Down Somewhere

Sonny James

Please forgive her when you see her acting like she doesn't care

She used to be an angel but I let her down somewhere

Don't condemn her for she's blinded by the deepest of despair

Oh, she loves me, I guess too much and I let her down somewhere

So trusting when I met her, she had so much faith in me

But as I fell, I took her along and I made her what she can't be

Please forgive her when you see her acting like she doesn't care

She used to be an angel but I let her down somewhere

(So trusting when I met her)

She had so much faith in me

But as I fell, I took her along and I made her what she can't be

Don't condemn her for she's blinded by the deepest of despair

Oh, she loves me, I guess too much and I let her down somewhere

I let her down somewhere
