

I Let Her Down Somewhere

Sonny James

Please forgive her when you see her acting like she doesn't care
She used to be an angel but I let her down somewhere
Don't condemn her for she's blinded by the deepest of despair
Oh, she loves me, I guess too much and I let her down somewhere

So trusting when I met her, she had so much faith in me
But as I fell, I took her along and I made her what she can't be
Please forgive her when you see her acting like she doesn't care
She used to be an angel but I let her down somewhere

(So trusting when I met her)
She had so much faith in me
But as I fell, I took her along and I made her what she can't be
Don't condemn her for she's blinded by the deepest of despair
Oh, she loves me, I guess too much and I let her down somewhere
I let her down somewhere
