

In My Blue Room

Sonny James

Every day after day I go home alone to my blue room
With the world locked outside no one can see me cry in my blue
room
For there are memories that keep haunting everyday of the past
and our love
So I hurry on home to be all alone in my blue room
There's a picture of you trimmed in gold and blue in my blue ro
om
A souvenir or two reminds of you in my blue room
For I live in the past with a love that didn't last all I hold
is your memory
So I hurry on home to be all alone in my blue room
There's some letters from you tied in ribbons of blue in my blu
e room
I know every word they say I read them everyday in my blue room
Though we're far apart you live in my heart all I hold is your
memory
So I hurry on home to be all alone in my blue room
