

Midnight Mood

Sonny James

Why has the sun lost its light
Since you're gone, ain't nothin' right
I'm in a midnight mood

Coal can't no fire light in my soul
When I ain't got, ain't got no love to hold
I'm in a midnight mood

Together we keep the weather
So sunny and warm every day
You leave me and and you grieve me
You take you take the sunshine away

Rain will fall steady on my heart
Just as long as we are far apart
I'm in a midnight mood
