

On And On

Sonny James

My love may be over the mountain
My love may be over the sea
Somewhere I know there must be
Someone one true love for only me

So I gotta go on
(Gotta go on, gotta go on, on and on and on)
My heart says on I know
Someday somewhere I'll find my love
So I gotta go on
(Gotta go on, gotta go on)

Well, I've been lonely, I've been blue
I'm just no good without her love
Well, can she be my one
And only where is the one I'm dreaming of
So I gotta go on

They say that true love will find a way
Somehow I'll find my way I know
And then I'll hold her in my arms
No lonely days love will grow
So I gotta go on
