

Open Field

Sonny James

Have you ever been troubled you feel so alone hurtin' with hear
taches and tears
Don't give up keep trying Thou faith never fear
Just look up there's someone who cares
All at once an open field of happiness surrounds you lookin' up
lookin' up to the sky
Someone's there watching you and he knows all your troubles
Walk with him talk with him you'll get by

Do you sometimes go weary and friends turn you down nothing is
turning out right
When there's darkness about you no light seems in view
Thou faith and he'll take care of you
All at once an open field...
Walk with him talk with him you'll get by
