

## Scars

**Sonny James**

The tears I cry each night, the thoughts you're gone from me  
I guess you could call them scars of a love that used to be  
Scars you left on a heart that still is true  
Scars of love is all that I have left of you  
The loneliness of night, the emptiness of the day  
How I wish that I could make this hurting all away  
Scars you left
