

Twenty Feet Of Muddy Water

Sonny James

I'm going down twenty feet into that muddy muddy water to search that old river bed

I'm going down twenty feet into that muddy muddy water
To prove there's no truth in what our friends have said
That's when you cross the bridge the other day

Well you took off my ring and you threw it away

I'm going down twenty feet into that muddy muddy water
To try to find the answer there

I'm going down twenty feet into that muddy muddy water
Though I know it's dark and cold

I'm going down twenty feet into that muddy muddy water
To search for that precious little band of gold

It's true it didn't cost much and I could buy more

But you can't buy a heart in a jewelry store

I'm going down twenty feet into that muddy muddy water

To try to find the answer there try to find the answer there

To try to find the answer there try to find the answer there

To try to find the answer there try to find the answer there
