

We're On Our Way

Sonny James

We're on our way and life is so wonderful
Love is the way the path we'll find
There's no mountain too high
For love like ours to climb

We're on our way your hand in mine
We're on our way we wish upon a fallen star
The world is ours we can't go wrong
At our rainbow's end we'll find a golden song
We're on our way our love is strong

Some men never find true love
Though they seek it everywhere
Love is found only in a heart
That's been enough strong enough to share

We're on our way yes we'll find our happiness
It's in the love we live each day
Just as long as we get there again love
That's all we need we're on our way

Just as long as we get there again love
That's all we need we're on our way
That's all we need on our way
