

## Free To Be

Sonohra

I don't take life to the limit  
i know it's what you say about me  
we've got a special love growing  
and i wonder just where it can lead

i get lost in a word it's a place where i go  
now i can share it with you..

R : Free to be,however we decided to be  
we make up our destiny forever more  
set me free  
you feel the empty space in me  
i'm reaching for a love and it's so good to be in time  
because your idea of love is just like mine

all alone in your bedroom  
where you don't have to hide your tears  
so you look for a reason  
in your head and your heart it is clean  
when you lie in the darkness and fell so unsure  
hold on to the love that you know

R : Free to be,however we decided to be  
we make up our destiny forever more  
free to be a bird who flies above the trees  
i left the warm wind carry me  
i'm never coming down  
because your idea of love is just like mine

R : Free to be,however we decided to be  
we make up our destiny forever more  
free to be a bird who flies above the trees  
i left the warm wind carry me  
i'm never coming down  
because your idea of love is just like mine
