

## In my imagination

Sonohra

Many pages in a story book  
About love between two people like us  
Is just a feeling of the moments  
In a world without time

I can see easily  
the beauty that'sÿ surrounding you  
Is reaching out  
to touch my very soul

In my imagination the world is what we(ll) make it  
And a love is all well need to carry on  
In my imagination Ive time to spend together  
And a love is all well need to stay alive

Some people passing never look at us  
As we run (running) along the chances in the wind  
In all the morning I will dress you  
(As) In the sunshine on my love

I can see easily  
the beauty that'sÿ surrounding you  
Is reaching out  
to touch my very soul

In my imagination the world is what we(ll) make it  
And a love is all well need to carry on  
In my imagination Ive time to spend together  
And a love is all well need to stay alive

So much time  
I wasted searching  
I was always (is) on my own  
Now the world is never ending with you

In my imagination the world is what we('ll) make it  
And a love is all well need to carry on  
In my imagination Ive time to spend together  
And a love is all well need to stay alive
