

# Love is here

Sonohra

It's a rainy day  
not a glimmer of sunshine  
Everything is grey  
but I see you in my mind  
like a ray of light  
and I know I will soon be ok

I put another picture of you  
next to my bed  
I listen to the wind  
blowin loud inside my head  
I don't wanna think of  
the distance that keeps us apart

You're always here  
Love keeps you near

Seven days on the road  
you are always my sole destination  
every step of the way sees me  
bringing my love back to you  
And as time goes by  
it becomes so clear  
you are not alone  
love is here

I listen to the words  
of a song about sorrow  
I know I'm gonna make it  
to see you tomorrow  
you're the only reason  
I get out of bed every day

You're always here  
Love keeps you near

Seven days on the road  
you are always my sole destination  
every step of the way sees me  
taking my love back to you  
And as time goes by  
it becomes so clear  
you are not alone  
love is here

love is here

Clouds are fading  
the sun is shining  
and the sky is turning blue

Seven days on the road  
you are always my sole destination  
every step of the way sees me  
taking my love back to you  
And as time goes by  
it becomes so clear

you are not alone  
love is here
