## Heartbeat

Once upon a time today Monday morning every day Wake up in another place Wake up with another face Everything is the same

Come to terms with what you say Walk away from everything Walk away from everything Lock away everything Memories stop the brain

Tell me Are you happy Living with no heartbeat? Heartbeat

It doesn't matter what they say Losing faith in everything Stay away from everything Walk away every day No one left to blame

Coming down, big mistake Slowing down, different takes Finding out that everything Must decay in the end Memories stop the brain

Tell me Are you happy Living with no heartbeat? Heartbeat

Tell me Happy Living Heartbeat

Tell me Are you happy Living with no heartbeat? Heartbeat
