Houdini

SONOIO

Right now
Sit down and make yourself at ease
Relax
There's nothing that can hurt you here
Your face
Speaking for you, telling me the things
You want me to do

I'm not
The one you think, the one you see
What's wrong?
No reason to freak out you see
There is
A meaning to denying you're afraid
What you believe

Lay down
Pretend it's time to go to sleep
Be strong
I'm right here by your side at least
I'm not
Leaving you alone in this
Just wait, still

Right now
I'm gonna make you disappear
Alone
Wishing that you weren't near
I've found
A reason not to have you here
This sound is all I hear

Right now
I'm gonna make you disappear
Alone
Wishing that you weren't near
I've found
A reason not to have you here
I've found
A reason to deny my fears
This sound Is all I hear

Today abandoning
Bad dreams
Once used to be
Magic, I don't believe
You are listening
To me, to anything
I say, tell me
Regrets, I have many
Is this happening

Right now
I'm gonna make you disappear
Alone
Wishing that you weren't near
I've found

A reason to deny my fears
And now you disappear

Right now
I'm gonna make you disappear
Alone
Wishing that you weren't near
I've found
A reason not to have you here
I've found
A reason to deny my fears
This sound is all I hear
This sound is all I hear
This sound is all I hear

Right now. you disappear
Right now. you disappear
Right now, you disappear
Right now, I disappear

Right now
I'm gonna make you disappear
Alone
