Devil On Both Shoulders

Sons Of The Desert

She loves to love me I love it when she does When we get together I feel a bit corrupt

When she feels the yearnin' I just let her go And we're off to somewhere Way out of control

I've got a devil on both of my shoulders When that angel's in my arms
She sets me free when I get to hold her
She lights a fire in my heart
My self-control is at an all-time low
When I hear a voice sayin' way to go
In stereo
I got a devil on both of my shoulders

I know it oughta be illegal For us to have this much fun And I know my choice between good and evil But there's a devil on both of my shoulders

I've got a devil on both of my shoulders When that angel's in my arms
She sets me free when I get to hold her
She lights a fire in my heart
My self-control is at an all-time low
When I hear a voice sayin' way to go
In stereo
I got a devil on both of my shoulders

Caught in the middle of the powers that be When I feel my Conscience gangin' up on me

I've got a devil on both of my shoulders When that angel's in my arms
She sets me free when I get to hold her
She lights a fire in my heart
My self-control is at an all-time low
When I hear a voice sayin' way to go
In stereo
I got a devil on both of my shoulders
