

And in this time of confusion
I'm feeling my way through the dark
Keep asking the same questions
Does anyone know the secret to my heart?

And is it all an illusion?
The voices in my head
I listened to the words of a poet
What I really needed was an action man instead

What if we met in another place and time?
No more dreaming
Just want some peace of mind

And I made no judgment of you
But I made a fool of myself
Believing that feeling and intuition
Was enough

And I hope you'll forgive me
But I made no joke of you
I underestimated the importance of being cool

What if we met in another place and time?
No more dreaming
Just want some peace of mind
What if you are here with me now?
Only blue sky not a cloud insight
Insight
Insight
Insight

What if we met in another place and time?
No more dreaming
Just want some peace of mind
What if you are here with me now?

Only blue sky not a cloud insight
Insight
Insight
Insight

Gonna turn it around
Upside down
Gonna turn it around
Upside down
Gonna turn it around
Upside down
