

Paradise Lost

Sophie Barker

You crack me up
Make me laugh
Make me cry
Enjoy each moment
Of this precious time

The world keeps saying
Be patient with love
No stress to break us
Where would we be now?

And I don't want to fall
With you in my arms
If paradise is lost
Where to now?

Nobody's listening
Nobody knows
How much we're missing
Down below

And I don't want to fall
With you in my arms
My love for you right now
Is all that you need

I want to wake with you
Not just in my mind
I want to talk to you
In the sunshine

You don't want to fall
With me in your arms
Your love for me right now
Is all you can give

And I don't wanna die
With regrets in my life
Best to let it go
When we're feeling high
