Paradise Lost

Sophie Barker

You crack me up
Make me laugh
Make me cry
Enjoy each moment
Of this precious time

The world keeps saying Be patient with love No stress to break us Where would we be now?

And I don't want to fall With you in my arms
If paradise is lost
Where to now?

Nobody's listening Nobody knows How much we're missing Down below

And I don't want to fall With you in my arms
My love for you right now
Is all that you need

I want to wake with you Not just in my mind I want to talk to you In the sunshine

You don't want to fall With me in your arms Your love for me right now Is all you can give

And I don't wanna die With regrets in my life Best to let it go When we're feeling high
