

# Wild Forever

Sophie Ellis-Bextor

There's a look in your eye  
That says you want to be care free tonight  
Just like in days gone by  
When we were wild

Darling I'm not so uptight  
And I can still put my mind on the flip side  
Cause I'm a soul resigned to a mundane line

Why be so ordinary, why just conform?  
Let's rip the night in half and forget it all  
So keep the engine running under the stars  
I feel release is coming, tonight it's ours

(Running wild)  
We shouldn't fight the way we feel  
(Wild forever)  
When it comes from somewhere real  
(Running wild)  
A garden always in full bloom  
(Wild forever)  
That's how I think of me and you  
(Running wild)  
And if escape is what we need  
(Wild forever)  
When it comes to you and me  
We should just surrender  
Stay wild forever

It's like a secret we hold  
And the adventures we go on are untold  
You've got to lose yourself  
To find your way back home

Why be so ordinary, why just conform?  
Let's rip the night in half and forget it all  
So keep the engine running under the stars  
I feel release is coming, tonight it's ours

(Running wild)  
We shouldn't fight the way we feel  
(Wild forever)  
When it comes from somewhere real  
(Running wild)  
A garden always in full bloom  
(Wild forever)  
That's how I think of me and you  
(Running wild)  
And if escape is what we need  
(Wild forever)  
When it comes to you and me  
We should just surrender  
Stay wild forever

We just have to surrender, we know, we know  
We just have to surrender, we know, we know  
We just have to surrender, we know, we know

We just have to surrender, we know, we know

We just have to surrender, we know, we know

We just have to surrender, we know, we know

We just have to surrender, we know, we know

We just have to surrender

(Running wild)

We shouldn't fight the way we feel

(Wild forever)

When it comes from somewhere real

(Running wild)

A garden always in full bloom

(Wild forever)

That's how I think of me and you

(Running wild)

And if escape is what we need

(Wild forever)

When it comes to you and me

We should just surrender

Stay wild forever

We just have to surrender, we know, we know

We just have to surrender, we know, we know

We just have to surrender, we know, we know

We just have to surrender, we know, we know

We just have to surrender, we know, we know

We just have to surrender, we know, we know

We just have to surrender, we know, we know

We just have to surrender
