

# House Of Gods

Sophie Hunger

School boy heroes a speech in every lip you copy kingdom  
Newspaper army that pretends to collect the truth  
Dog in a trap and you try to forget why it's whining  
While you just decide for your self

Alien neighbor my house doesn't burn if you don't see it  
Should I wait for a prophet, for a lesson to learn for the good  
Alien neighbor there's ash on your lawn, you were the savior  
You would have been at mercy when the winds didn't turn  
Around, around  
Round, around

Look at it, don't look at it now  
Look at it, don't look at it now  
Look at it, don't look at it now
