

# Gone So Long

Sophie Zelmani

You been gone so long  
That I don't know  
How to welcome you  
When you get here

Been gone so long  
That I must spend  
Some time  
To get prepared

Been gone so long  
So the things  
I'd tell you  
Don't seem to matter

Been gone so long  
It's been quite awhile  
Since things around me  
Started to get better

Oooh you been gone so long

I've been alone  
So I've got used to the nights  
And the mornings  
And my new habits

It's changed the tones  
So the rhythm slowly  
Took our dance  
Into the shadows

It's coming days  
When I don't know  
If we can continue  
Or if we must start over

Your stay away  
Made me waiting  
Like a woman for her  
Missing soldier

Oooh you've been gone so long  
Oooh it's been so long  
Oooh you've been gone so long  
Oooh it's been so long

Been gone so long  
And I let someone  
Step into the picture

While you were gone  
I met someone  
And he makes  
Our picture blurred
