

# Gone With The Madness

Sophie Zelmani

I'm gonna bring a bottle of wine  
Won't change the truth just to fit our time  
Disappointed, it was a man  
Hidden in the woods of my dreamland  
I wanted you to desire me

I could have  
Gone with the madness  
Gone with the madness

I don't regret you or that I met you  
But I was too honest where games must take their place  
It's such a crime  
But I was swept off my feet for the first time

For the first time, I don't need my pride  
To you it was crazy but I'm still excited inside  
And I wanted you to desire me

I could have  
Gone with the madness  
Gone with the madness

Everything  
Is gone with the madness  
Is gone with the madness
