

If I Could

Sophie Zelmani

If I could Give anything, I would If my thoughts could do you good

If I could help you with This part of life you've got to live You could load your weight on me

If I meant to you What you mean to me Your fight would also be The greatest thing You could do for me

If I knew When your pain be shining through I could be watching over you

If I'd been close, I could reach The things to use And know just what to do

One thing I will do To never let you go, never let you go
