Keep It To Yourself

Sophie Zelmani

Keep it to yourself You keep it to yourself It's your treasure But you're not thinking of my health

Like this morning Were you dreaming? Was it a night in hell? It's your burden But I'm not feeling well

You are gone with your feelings Are you taking care? If you're good at what you're doing It's good that I'm here

You just disappear You just disappear It's your talent But I only get scared

You are gone with your feelings Are you taking care? If you're good at what you're doing It's good that I'm here
