

Lost In Love

Sophie Zelmani

There's a drawback in living for the moment
in loving life too much
Everytime you're lost in love
you wonder when the love will stop
I'm lost in love

There's a price to pay
if you want to enjoy the present time
To be that thankful demands
that you are always carrying death in mind
Death is around

There's a point to put off some things
and save them for a rainy day
Only those about to die
are acting in a perfect way
Who wants to die?

There's an answer to why you can
so rarely take in what you see
The pleasure is followed by
a fear you want to avoid to feel
I'm so lost in love

There's a freedom in making plans
to think about a future, and
there's a comfort in being sure
that it'll be long before the end
I'm not making plans

There's a reason why so many
only get one little chance
If the song was sung forever
no one ever stop to dance
