

# Moonlight

Sophie Zelmani

I'm sure it is bright  
But you left so early that morning

It's known for it's light  
It's not very far  
Come back to me  
For the moonlight

It's so dangerous here  
Love takes my time  
Love makes me worry

But it ain't so far  
To where you are  
We still can meet

In the moonlight  
In the moonlight
