Oh Dear

Sophie Zelmani

Don't you ever go out When was the last time you were out? Have you ever been out, oh dear?

Is something wrong with the air Since you can't breathe in here? How long have you held your breath, oh dear?

What is closing you in
Must be a giant dream
It's not your life we have seen, oh dear

Don't let your choices be Hopes you still can't feel All was given for free, my dear
