

# Once

Sophie Zelmani

Hey you  
Can i breathe  
If my chest is covered

Hey you  
Is my face making sense  
Eyes can't be still  
In a moment so tense

Here babe  
Are the notes you must play  
This babe, is the procedure

Here babe  
Not in another way  
I can assure you  
That you will be okay

Once would do  
Once could change everything  
Once could tell  
And help me to clear out  
Some things

Once would make  
No difference at all  
Once or not  
I've already made this fall

Hey you  
Make the most of the time  
You've got to cross many borders

If you can't control your mind  
Something will happen  
It's just a question of time

Oh babe  
I can't concentrate  
I'm here for the wrong reason

It's you who makes my knees shake  
One season, then  
The brakes are gonna break
