

Our Man

Sophie Zelmani

How could we say goodbye How can we say goodbye How make a song
reach the sky How make your song reach the sky

My angels make the best of room Here comes someone You really ought
to get to know Here comes someone beautiful from below It ain't
easy to watch him go

A treasure chest sinking down To the bottom of the sea It's too
deep, it's too high Today it really, really hurts to feel

For sorrow you can't train your heart Now is when we all go under
If tomorrow comes we will talk And remember you As our man of
thousand wonders

How could we say goodbye How can we say goodbye How make a song
reach the sky
