

## Woman In Me

Sophie Zelmani

Can you hear the rattling rain  
Like a cradle song  
To iver your pain  
Can you feel the howling wind  
It's gonna bring  
Your thoughts to sin

There's something  
About the night  
Brings out the woman in me

When the room is dark  
And you let it go  
The watching shows  
And talk throught the walls

When the sheets  
Have got you warm  
And you fall into the deep  
Wish the dreams will give you  
A night of good sleep

There's something  
About the night  
Brings out the woman in me
