

All Of My Life

Sophie

I'm in love with you
'Cause baby you can change my world
May be you will make my life so new
And my emotion can't be true

Come on baby lost together, love forever
Take my passion now or never
Let me prove it, make me lose it
Satisfaction come inside

All of my life, I'm gonna dream it tonight
For I can't live when you turn off the light
Falling without you
All of my life, I need you just for a night
'Cause I can feel the power, big desire now
Forever and ever

I'm in love with you
'Cause baby you can take my soul
Baby you can make me feel so blue
Don't let me be misunderstood
