

Drive In The Night

Sophie

I'm in love with you
Babe wanna feel is just desire
Let your body close to mine
Wanna be with you
Darling when you touch me
I'm on fire
Let me loving so
Every night

Rock me take me up
Your sweet love is music
Kiss me shake me up
Sitting on my right side
Love me take me up
Let's your body moving
Kiss me shake me up
Every night I'm fine with you...

Ohohohoh oh drive in the night
Babe take me to paradise
So I drive yes I drive...
Ohohohohoh take me tonight
Tell me what you needed deep inside
Eh eh ehahaha ah

Every time you move
Darling I just feel a great desire
When I loose my mind one more time
Do you love me do
Do you feel the pain
When you're on fire
Do you miss me babe
Every night

Open your eyes and show me your sweet way
Every night
Kiss me tonight and make me fun and right
Make me high
