

Make It Feel Good

Sophie

Babe let me be your girl forever
Cuz for the rhythm of my heart (Life)
And I know really know loving you is heaven
Nothing else for me that could matter
Can't stop meeting with you
Deep in my heart I dream an endless life
Can't believe that it's you
The man I really wanted to find
Yes it's you
You make it feel good
Make it feel fine
Given the love that I desire
Make it feel good
Make it feel close to paradise
Yes it's you (Guess it's you)
You make me feel good
Make it feel fine
Given the love that I desire
Make it feel good
Make it close to paradise, yes it's you
Now that you're mine and you're my lover
Think of the way things used to be
When alone all alone I was lost and worried
Hoping everything could be better
