

Same

Sophie

True love is all you need
What can we do but try
Nobody wants to give
Their love and so
They'll be alone forever

Nothing is real
Nothing to feel for soul
Always to change
We are to blame, oh God

Happiness so hard to find
We'll never win this game
And tomorrow will be the same
We'll never get to know
We'll never to say
And tomorrow will be the same

Now please don't hide away
Only your heart can win
I'll make you see the way
Only with love
You will live forever

Open your heart
And tomorrow will not be the same
