Same

True love is all you need What can we do but try Nobody wants to give Their love and so They'll be alone forever

Nothing is real Nothing to feel for soul Always to change We are to blame, oh God

Happiness so hard to find We'll never win this game And tomorrow will be the same We'll never get to know We'll never to say And tomorrow will be the same

Now please don't hide away Only your heart can win I'll make you see the way Only with love You will live forever

Open your heart And tommorrow will not be the same Sophie
