

Tell Me Why

Sophie

Tell me why
Tell me why

Think of me when you're far away
I'll love you night and day
All my fears coming without fears
I'm not a fool to say

Now it's time for you and me
Can you feel my love
You call my name, I do the same
Look into my eyes and realize
All is for you, my love is true

Tell me why I can't stay
Waiting for you just another day
Do you know, do you mind
'Cause my dreams will never fade away

Don't give up, gonna hold you tight
I will be close to you
Think about all those summer nights
So what else can I do

Tell me why
Do you know

Tell me why
Tell me why
