Tell Me Why

Tell me why Tell me why

Think of me when you're far away I'll love you night and day All my fears coming without fears I'm not a fool to say

Now it's time for you and me Can you feel my love You call my name, I do the same Look into my eyes and realize All is for you, my love is true

Tell me why I can't stay Waiting for you just another day Do you know, do you mind 'Cause my dreams will never fade away

Don't give up, gonna hold you tight I will be close to you Think about all those summer nights So what else can I do

Tell me why Do you know

Tell me why Tell me why Sophie
