

Treat Me Right

Sophie

Only you
Come into my life
Like a hurricane making up my mind
With your love
Your sweet tenderness
I can do anything never let you go

Never felt so right by your side
Love is burning bright all the way to heaven

Hold me touch me treat me right
Feel the magic come back to me
Love me squeeze me treat me right
Keep me loving fly to me

Don't you know
Don't you know that I
Can't forget you now
I won't give it up
Without love
I feel so alone
Something about you is a part of me
