

## I Feel Life

Sorry Boys

I feel life when you are close to me  
I feel we die when you are close to me  
I feel life only when we die  
I feel we die only when we lie

It's a lie what I'm believing  
It's a lie when you are close to me  
I feel life only when we die  
I feel we die only when we lie

Every kiss we are longing, every hand we take  
Anytime we are waiting we are waiting too long  
Every kiss we are longing, every hand we take  
Anytime we are waiting we are waiting too long
