

I Feel Life

Sorry Boys

I feel life when you are close to me
I feel we die when you are close to me
I feel life only when we die
I feel we die only when we lie

It's a lie what I'm believing
It's a lie when you are close to me
I feel life only when we die
I feel we die only when we lie

Every kiss we are longing, every hand we take
Anytime we are waiting we are waiting too long
Every kiss we are longing, every hand we take
Anytime we are waiting we are waiting too long
