

Salty River

Sorry Boys

It looks like the river
But strange is it's taste
If you will
Be patient
You'll find a hidden place

Go on taste the water
It's salt on your tongue
The river is salty
As salty as life

I have my own river
I have my own place
I put into the river tears from a human face
There is a salty river
There is a hidden place
I have my own river
I know my place

River, river...

I have my own river
I have my own place
I put into the river tears from a human place
There is a salty river
There is a hidden place
I have my own river
I know my place

River, river...
