

You got me going  
So get me out of here  
I should be blowin'  
In someone else's ear

I'm looking forward to looking back  
On days like today  
Though I wish you would go away  
Stay, won't you stay

I'm gonna crawl  
I never felt better just crawling home  
I'm gonna crawl home, crawl home alone  
Good to see you, see you later, maybe one more beer  
I'm gonna crawl home from here

Some respond to pleasure  
Some respond to pain  
I'm hangin' out to dry  
In the pouring rain

Victims of temptation  
Never can complain  
I could use the sensation  
You see I can't feel pain

I'm gonna crawl  
I never ever said I'd never make it home  
It's just a stone's throw, a crawl home  
Good to see you, see you later, maybe one more beer  
I'm just a crawl home from here

I could use someone  
To drag me out of here  
I am that someone  
It's all become quite clear  
So get me out of here

I never felt better just crawling home  
I'm gonna crawl home, crawl home alone  
Good to see you, see you later, and I'm outta here  
I'm just a crawl home from here
